Board Certified: American Board of Ophthalmology

6/9/02

Academic Appointment:

Assistant Clinical Professor of Ophthalmology, Kansas University Medical Center

Associate Editor:

Journal of Refractive Surgery

Practice:

Durrie Vision, Overland Park, Kansas	8/2003 – present
Stahl Vision Center, Olathe, Kansas	10/2002 – 8/2003
Hunkeler Eye Centers, Overland Park, Kansas	7/2002 – 10/2002
Vance Thompson Vision/Ophthalmology Ltd., Dakota Dunes and Sioux Falls, SD	8/2001 – 7/2002

Education:

Hunkeler Eye Centers/Daniel S. Durrie, MD, Overland Park, KS Cornea and Refractive Surgery Fellowship	2001
Scott & White Hospital / Texas A&M University, Temple, TX Ophthalmology Residency Program	2000
University of South Dakota School of Medicine Transitional Year Residency Program, Sioux Falls, SD Internship	1997
University of South Dakota School of Medicine, Vermillion, SD Doctor of Medicine	1996
University of South Dakota School of Medicine, Vermillion, SD Bachelor of Science in Medicine	1994
University of South Dakota, Vermillion, SD Bachelor of Science Degree in Biology with Chemistry Minor	1992

Honors and Awards:

Ingram's Magazine - 40 Under Forty	2009
Qualified and listed at Trusted LASIK Surgeons , an online directory that screen LASIK and cataract surgeons based on experience, premier patient care, and professional credentials	2008-2009
American Academy of Ophthalmology Achievement Award	2007
Third Place-Best Paper: "Alcon CustomCornea PRK Clinical Results." 2002 Fall World Refractive Surgery Symposium, Orlando, Florida	10/18/02
First Place-Best Paper: "How to Manage Epithelial Trauma During LASIK." LASIK Special Complications-Corneal Ectasia/Sands of Sahara Session. World Refractive Surgery Symposium, Dallas, Texas.	10/21/00
First Place-Best Paper: "Induced Astigmatism with Hyperopic LASIK: The Cause and the Cure." Hyperopia & Astigmatism Correction Session. World Refractive Surgery Symposium, Dallas, Texas.	10/20/00
Chief Resident in Ophthalmology	1999-2000
Cum Laude, University of South Dakota SOM	1996

Presentations/Panel Discussions:

- Nonarteritic Ischemic Optic Neuropathy. Senior Ophthalmology Elective,
Department of Ophthalmology, University of Missouri, Columbia, MO, August
18, 1995.
- Corneal Subepithelial Nodular Scarring Treated with Phototherapeutic Keratectomy in
a Child with Rothmund-Thomson Syndrome. Everett R. Veirs Lecture and
Ophthalmology Conference, Temple, Texas, February 1998.
- The Effect of Corneal Thickness on the Accuracy of Intraocular Pressure Measurement
in Rabbits After Excimer Laser Photoablation. Everett R. Veirs Lecture and
Ophthalmology Conference, Temple, Texas, February 1999.
- Corneal Subepithelial Nodular Scarring Treated with Phototherapeutic Keratectomy in
a Child with Rothmund-Thomson Syndrome. The Association for Research in
Vision and Ophthalmology, Ft. Lauderdale, Florida, May 9, 1999.
- The Effect of Transscleral Diode Laser Photocoagulation on Extraocular Muscles in
Rabbits. Everett R. Veirs Lecture and Ophthalmology Conference, Temple,
Texas, February 2000.
- Induced Astigmatism with Hyperopic LASIK: The Cause and the Cure. World
Refractive Surgery Symposium, Dallas, Texas, October 20, 2000.
- How to Manage Epithelial Trauma During LASIK. World Refractive Surgery
Symposium, Dallas, Texas, October 21, 2000.
- Does Conductive Keratoplasty Induce Astigmatism. American Society of Cataract and
Refractive Surgery Exhibit Floor, San Diego, CA, May 1, 2001.

Focus on Independence – Volunteer Surgeon

2004-present

FOI is a not-for-profit Kansas City-based organization that provides laser or surgical vision correction at no cost to individuals throughout the United States who have suffered spinal cord injuries resulting in the loss of upper-body movement affecting their ability to handle eyeglasses or contact lenses.

Gift of Sight – Volunteer Surgeon

2008-present

Holiday event that enhances the vision of our Kansas City neighbors. The surgeons of Durrie Vision perform free laser vision correction on patients chosen by staff members as a result of a write-in nomination campaign. This program gives back to our local community by allowing the community to select friends and neighbors that they feel would benefit the most from vision correction surgery.
